If you responded with a score of 4 or 5 for one of the previous items in course design, instructional practices, assessment practices, course impacts, or student engagement, please comment on what aspect of the course led to your score.

- Kyle Yates was a really great teacher and I wish I could have him for Calc 2! He explained everything thoroughly and was really great at answering any questions in great detail. He was also easy to reach and his office hours were helpful for studying for the exams. The workload wasn't too much but still kept me on track. He is a really great teacher and I'd recommend him for anyone.
- He teaches well and genuinely wants us to succeed. Although his teaching method was not the way my brain worked he still was a great teacher overall and would gladly answer a question if asked.
- he is able to communicate questions clearly and precisely just he moves through content quite fast
- Mr. Yates made the course material very easy to understand. He is very willing to help and genuinely wants students to understand math. The course material was appropriately challenging and the homework platform was helpful, especially the tab that provided explanations for problems.
- Kyle is awesome and has a good style of teaching. He is always willing to answer questions.
- Taught the concepts very good and explained concepts in depth
- Great course design helped me learn. Kyle Yates is a great teacher. Give this guy a raise
